Holy Mother has come to the entire world as Compassion of Love to uplift the mankind and help solve the issues faced by women and girl. Mother has been working towards the mankind since her childhood days"

Amma addressing the gathering "Embodiment of divine souls, this is a great day for all of us, today over 60,000 people from over 80 countries are under one roof at Melbourne, Australia. To bring peace and unity in the whole world". (The audience applause Amma on her welcome address)

Amma continues her talk.....

Human life is a pilgrimage to the shire of truth. Life is priceless treasure; it leads us to a tunnel... the tunnel of love. Life on earth is a school of wisdom, and realization of the self. Life is more precious than money, gold and diamonds.

Our world is a beautiful home. All the countries are like one room, Australia is one room, USA is one room, India is one room, Japan is one room and world is like a house. We all belong to one family. Today in our world, innumerable women and girls are suffering with pain. Over 80 million girls don't have the opportunity for education.

Baby girls and young girls are abused in school or while going to school. 2%-3% children are abused for many reasons. Over 53% of the girls are sexually abused in the world. These are the darkest days of our lives. By the sword of purity we can destroy the darkness from our world home. Women is divine power, she is perfect. If Mother is peaceful at home all her children are peaceful at home.

In the year 2009 over 100,000 women are killed by fire and due to domestic abuses in India alone. Without women there is no life. Girls and women are not safe in our world home. Living with wisdom is the birth right for all women. This is the right time to think right, to our world on this issue.

In our world home everyday one billion are starving without food. Every second five women are dying with starvation. The database about agriculture, shows that women are working and helping in agricultural activities. Even though they support the production of food grains, they don't have food to eat.

If the world home has to be peaceful. The wars must stop in our world. This is my first desire and ambitions. The money that's spent on war could be used for more meaningful purpose, like feeding and saving lives of billion people. New thinking, new thoughts have come to our world. For each hour eighteen women are being abused in our world. As every hour passes, the hardship of the women increases. My heart bleeds, I can't sleep, I can't eat..... how can I?

Every year 300,000 to 500,000 baby girls are secretly sold for prostitution. Crime psychology is like a disease. All the crime are like diseases we have to give right treatment at right time. I am from Andhra Pradesh, INDIA the highest rate of abusing women. 21,490 abuses were reported on women in the year 2006, but innumerable women and girls are crying without opening their mouth, they are in salience, they are so sad. "No one can give life nor take life". Worldwide 60 million girls are not born; they are killed in the womb of the Mother. 1/3rd of the women are beaten and abused regularly in this world. One woman was killed every week by their people, five women are killed every week in Zambia. In England three women are killed every week by their partner/husband/family people.

In 1997 study shows that one in five women are raped. In USA every 90 seconds one woman is raped. 80% of the refugees are women and girls. They have no safe place. Where can they go? What can they eat? Where is peace place for this beautiful place? Women is shakti, we need to honor women. In Asian countries 1.35 billion are suffering genetical mutilations. In Indonesia, Sri Lanka, Malaysia, Emirates, Australia, women are suffering 55%. New infections of AIDS is raising every day.

Dowry system in India. Every year 15 years onwards, 15,000 women died in mostly in kitchen fire accident, because of dowry. My heart is broken. The greatest mistakes done by the male world is insulting, verbal abuses and misbehavior with wife and discriminating women. I am shocked and distressed to hear that in 53 countries there is no law for women. Violence reported for women in 2006 is 21,000 cases, in 2007 135,312 cases. Day by day and year by year the cases are increasing. There are many unreported cases. Millions of women are suffering with broken hearts in silence. Women tears are not good for the world. It is like a curse. 35% of women in our world are brutally abused by their husbands. 75,000 women are tortured by their husbands as food is not cooked properly.

In New Delhi 19,000 rape cases had been registered. As a MOTHER my heart is bleeding when I hear the facts about women and girls as they undergo these abuses. This is the time for all the people in the world to come forward and stop abusing the women and girls; and change the society.

Amma concluded the talk by providing the solutions, by saying –

"Infinite and immeasurable power is in the women. How Ramakrishna Paramahansa honored women, same way men should be educated in how to honor, respect women".

“Morale roof is being ruined in 21st century”, today we have education, bit I am expecting Inner Values and Higher Values Education for ALL. GOD IS ONE, TRUTH IS ONE, the WORLD IS ONE, Fundamentally we all are ONE. I am expecting peace for everyone in this world.
