Date : 5<sup>th</sup> Dec. 2009

H. H. Amma Karunamayi Sri Sri Sri Vijyeswari Devi at Parliament of World Religions.

Today is 3<sup>rd</sup> day of the conference at Melbourne Convention Center. The day started in PWR with Amma's morning observance program at 8:00 AM. The morning observance was about "Mother of Compassion: Ancient Secrets to Inner Peace: Healing our Earth, Our Faith, and Ourselves".

As Amma entered the auditorium, all the participants stood-up and greeted Amma. The participants saluted Amma while she was walking towards the dias. Amma took her asan on the dias.

Amma started the morning observance with chanting of "Om karam" three times. Once the chanting was finished, Amma took to participants to meditation. The meditation lasted for 15 minutes, while the meditation was in progress; the atmosphere in the auditorium was filled with divine fragrance and energy. The energy was so powerful, the participants started to feel the warmth of the meditation. The meditation was concluded by chanting of "Shathi" three times.

Amma greeted the participants with her divine voice and addressed the participants in her most affectionate manner as "Embodiment of Divine souls, my most beloved children".

Amma continued.....

GOD is embodiment of silent love, God is an Ocean of absolute silence and love. If you wish to attain God realization you also become an embodiment of silence and divine love. The only greatness in life is unselfish pure love. There should be not even an atom of selfishness remain in pure love.

Silence bestows immortality supreme peace and everlasting joy. Silence is savior of life. Silence is divine nectar. Silence makes great sacrifices. Silence forgives any sin on this world.

My dear children, silence is eternal, unchanging, undecaying, and infinite. In meditation your silence leads to liberation. Your pure love and your silence meditation purify the heart and transmit life into divinity.

My dear children love God with all your heart and soul. The idea of superiority is ignorance or delusion. In this conference all of us work together with unity and it is our responsibility to keep and bring peace on our world home. Unite with all, separation with country to country, and continent to continent is death. Unity with world is eternal life.

My beloved children, love your enemies, love your neighbors, and return love for hatred.

I feel the whole world is my divine body.

You can also feel that?

The participants responded saying that they could feel “divine fragrance of love” in affirmative voice.

Amma continues.....

This world is our home. Melt and destroy all barriers of separation from the soul to soul through meditation. Feel that divine light in your body. Feel that your body is moving temple of God. Wherever you are, whether at home, or in office, or in airport, or in railway station, or in market, or on the street, feel that you are in YOUR SELF. Make every work into meditation or yoga. Have the feeling – “I am non enjoyer”. Feel that only divine power is working through all hands. You will become a divine being. You will enjoy the highest peace and bliss. You’re every act as offering to the almighty. The participants were listening to Amma’s wisdom with great inspiration.

There is a great language in our world, even deaf can hear; and dumb can understand what kindness is. Now our modern world is suffering with lack of love.

Dear children, little drops of water make the mighty ocean, similarly little acts of kindness make an ocean of cosmic love. Kindness is a direct way to the kingdom of eternal bliss. We have to be kind to all. A kind man or women is really the emperor or emperors of the vast kingdom of peace. A kind word; a kind act, a friendly smile all cast nothing but bring to others happiness. Kindness is giving soothing to the suffering hearts. Kindness is healing balm. Kind words soothe quite and comfort the hearer owns kindness is the golden chain by which binds soul to soul. Kindness is a grace, kindness is tenderness, humanness. We have to be kind and help the injured hearts.

My most beloved children, I am sure heaven is open to all kind hearted mediators. Again coming to silence, silence is the living essence of the divine’s nature. Which full of all kindness, goodness only. Silence is only a gold link which binds all country, and continues together. Silence gives us divine love, humility, love, kindness is the crowing grace of humanity. Silence is the master key to open the door of salvation or external bless. Silence is best thing is this world. Kindness and silence heals broken hearts, life is a great thousand petal lotus flower which silence is the honey.

The great pleasure of life is divine love and inner silence. Silence is the whole and the very breath of heart. Silence is truth. Silence is heaven upon Earth. True inner silence is indeed heaven upon earth. True inner silence removes all sorts of fears. This world has come out of silence love of truth. Our world home exists in divine silence and finally dissolves in silence of truth.

Silence inspires - Cosmic inner truth

Silence inspires - Divine Love

Silence inspires - Illumines designates

and leads to cosmic love. My beloved children silence is truth. It is joy, perennial bliss. It is absolute conciseness this cannot be expressed in language nor even can be thought because to express it, is to limit the absolute. When you attain "Supreme Self" then all is known. Entire world, all living beings are the essence of truth.

Conclusion –
