

Jai Karunamayi

Date : 7th Dec. 2009

H. H. Sri Amma Karunamayi Sri Sri Sri Vijyeswari Devi at Parliament of World Religions.

Today is 5th day at the conference at Melbourne Convention Center. The day started with H.H Sri Karunamayi Amma attending interview with Online TV, SFO, USA, the interviews continued through the first half of the day. Amma was invited by Sri Sukhbir Singh of GNNSJ, London, UK to be the main speaker at "Scared Sites, Sacred Solidarity: Current Initiatives".

Amma was introduced to the participants by Sri Sukhbir Singh and invited Amma to the dais. All the participants stood-up and greeted Amma.

Amma started her talk with divine greetings "Embodiment of divine souls".

Amma continued.....

I am from divine India, from the state of Andhra Pradesh. "I am going to talk about World Peace and on the current initiatives on Scared Sites and Scared Solidarity". To make peace, we all should try to make our personal efforts and implement World Peace.

How can we make these efforts? And how can we implement? This total world is one home of God. It doesn't matter what we believe. Feel the world is mine. Total creation comes from God or truth. Why you should love your birth place only? Or only one country? Total world is yours.

Melt and destroy all the barriers that separate people from people. The idea of superiority is innocence and ignorance. We have to unite with all. Separation feeling itself is death. Unity with world is eternal.

Through your meditation or prayer unity with self is wisdom and peace. True devotion, meditation, is non attachment to objects in this world. This very important to serve the mankind with love, we all are bound to this world with attachments. We will definitely liberate through meditation. Then evenness comes in the mind that is Equanimity. It is balanced mind in pleasure in pain, success, and failures, honor and dishonor, the state of Equanimity is total calmness and steadiness of mind. Let everyone can do meditation everyday.

Today I am here with you to share my feelings about solidarity. I am always expecting unity in our world home. When we see the birds in the sky, one bird is leading all birds are following each other without any disturbance. They know very well unity rules. We are watching this in birds and animals. In the ocean, all fishes are together. Whenever any problem comes, lets us join our hands together and solve

the problem, yes together. We need this universal brotherhood in our hearts. Wherever there is unity there is divinity. Truth is absolute. The absolute is nothing but all of us, that's why we have to have unity in our world home. Let all of us work together with unity. Let us sustain this unity in our entire life time.

In Afghanistan the great rock sculpture of Buddha were destroyed by people. Sacred sites are being destroyed by visitors by writing and drawing graffiti on the monuments/rocks. All places that are sacred must be considered sacred to mankind regardless of religion. People should be educated and made to understand that sacred places are the places in their hearts and built for peaceful purposes. Sacred places are not only structures, they are natural places, like oceans, mountains, rivers, fields, stone arches, and all are God creations. We must make efforts to preserve as a remembrance of God's beauty.

Today people are ruining other faiths monuments, temples, because they do this as they think that these monuments, temples do not belong to them. This is their feelings, but in fact it belongs to them too. How we are protecting our family and temple, we should protect monuments and temples. The Golden Temple in Amritsar, Punjab was projected by the people of Punjab when it was invaded. How we safe guard Mecca, same way we should protect the monuments.

On the behalf of Sri Matrudevi Viswashanti Ashram Trust (S.M.V.A), I am going to write a letter to the government for protection of the monuments, temples, mosques, gurudwars and other religions faiths should be protected.

The local people and the politicians should come forward and take effective measure, educate the visitors to not to destroy the scared monuments.

Thank you so much for all of you coming to this beautiful program. Thanks for giving me this opportunity to share my feelings with you. Once again thank you so much for listing to me.

“Om Shanti, Shanti, Shanti”

Feedback from the audience –

The participants were drowned in the divine talk of Amma. Many of the participants felt the need to change in them and come forward to help the local authorities to protect the monuments and its sacredness.

One participant said that, “she was encouraged by Amma's talk and she vowed that she would be part of the society and help the local authorities in protecting the God's home and World Home”

Another participant said that, “he would help to protect his and our World Home”

JAI KARUNAMAYI!
